VetFM 5.9 Software Features

• Complete front-to-back practice management system

• Patient records with unique 'visit' approach

• Agile reminder schemes that can pass reminders between items

• 'Intelligent' key-ins ensure accuracy

• Multi-view scheduling that creates clients/patients and builds visits, line items and reminders automatically.

• PDF, Excel, vCard, CSV and tab output with powerful on-demand reports

• Highly graphical postcard/letter/email reminders & forms

• Invoices that communicate to clients!

• Advanced medical records with full SOAP, AAHA/AAEP standard diagnoses, followups, observations & configurable history with image display. VetFM is the first software to implement the new AAHA and AAEP standardized diagnostic codes. Full chart locking and archiveng

• Built in dictation with medical dictionary

• Inventory and automated purchase orders

• Complete drag and drop document management that can store any file format and double-click to launch directly (DICOM etc.) as well as export full EMR. Save having to buy a PACS system (big savings!). Single click History export to email including all documents and images

• Lab tracking

• Automatic and manual followups

• Powerful Visual Audit Trail for financial controls

• Client, Patient, Visit notes with alarms and unlimited document storage

• Google Maps integration

• Powerful iOS features for iPhone, iPad or iPod Touch including VetFM Camera Direct (camera directly connected to database to capture photos or movies)

• Easy software updates performed by us! (No CD in the mail)

• Boarding, grooming and kennel management

• 'Groups' feature allow rapid entry of patients/visits for high-volume clients or help track referrals

• Interface to ePetHealth and Healthy Pet Magazine (eReminders, mobile history access)

• Email/text message appointment reminders or interface to phone dialer (PhoneTree)

• Conversions from any practice management system available. Free conversion of clients and items from Quickbooks, AccountEdge or FirstEdge

• SEE MORE OVERLEAF

VetFM System Features

• Based on #1 selling FileMaker Pro 15 and 16

• Mac OS X Sierra, High Sierra and iOS 11

• iPhone/iPad/iPod Touch VetFM Camera Direct and other features

• Windows 10 (we support Windows for 'switchers' and DR integration)

• Mac and PC 'mix and match'

• Runs on laptops, desktops and iPad

• No special server required (saves money and increases uptime!)

• Supports up to 1000 users per system

• Operates on ethernet or wireless networks (or both)

• Easy to manage and configure

• Simple one-click backup (VetFM is only one file!)

• Storage only limited by disk space!

• Easy remote access from anywhere via the internet

• Web training & video tips included

• Proactive unlimited customer care and diagnostics

Sets link items and procedures automatically in appointments, visits and invoices
