### VetFM 5.9 Software Features

- Complete front-to-back practice management system
- Patient records with unique 'visit' approach
- Agile reminder schemes that can pass reminders between items
- 'Intelligent' key-ins ensure accuracy
- Multi-view scheduling that creates clients/patients and builds visits, line items and reminders automatically.
- PDF, Excel, vCard, CSV and tab output with powerful on-demand reports
- Highly graphical postcard/letter/email reminders & forms
- Invoices that communicate to clients!
- Advanced medical records with full SOAP, AAHA/AAEP standard diagnoses, followups, observations & configurable history with image display. VetFM is the first software to implement the new AAHA and AAEP standardized diagnostic codes
- Built in dictation with medical dictionary
- Inventory and automated purchase orders
- Complete drag and drop document management that can store any file format and double-click to launch directly (DICOM etc.) as well as export full EMR. Save having to buy a PACS system (big savings!). Single click History export to email including all documents and images
- Lab tracking
- Automatic and manual followups
- Powerful Visual Audit Trail for financial controls
- Client, Patient, Visit notes with alarms and unlimited document storage
- Google Maps integration
- Powerful iOS features for iPhone, iPad or iPod Touch including VetFM Camera Direct (camera directly connected to database to capture photos or movies)
- Easy software updates performed by us! (No CD in the mail)
- Boarding, grooming and kennel management
- 'Groups' feature allow rapid entry of patients/visits for high-volume clients or help track referrals
- Interface to ePetHealth and Healthy Pet Magazine (eReminders, mobile history access)
- Email/text message appointment reminders or interface to phone dialer (PhoneTree)
- Conversions from any practice management system available. Free conversion of clients and items from Quickbooks, AccountEdge or FirstEdge
- SEE MORE OVERLEAF

### VetFM System Features

- Based on #1 selling FileMaker Pro 14 and 15
- Mac OS X El Capitan, Sierra and iOS 10
- iPhone/iPad/iPod Touch VetFM Camera Direct and other features
- Windows 10 (we support Windows for 'switchers' and DR integration)
- Mac and PC 'mix and match'
- Runs on laptops, desktops and iPad
- No special server required (saves money and increases uptime!)
- Supports up to 1000 users per system
- Operates on ethernet or wireless networks (or both)
- Easy to manage and configure
- Simple one-click backup (VetFM is only one file!)
- Storage only limited by disk space!
- Easy remote access from anywhere via the internet
- Web training & video tips included
- Proactive unlimited customer care and diagnostics
